THE COMPANY

Matrix Eco Solution present ourselves as a renowned company in the field of Water treatment. Our stress has, always, been towards providing prime quality, imported substitute equipment and most efficient after-sales-service to our clients anywhere in the country, Our company vision has been to develop and market the highest quality water treatment systems in the world, and our steady annual growth indicates that our satisfied customers are the greatest factor in that vision. Water treatment is the sole mission of our company. We specialize in almost all sphere of Water Treatment. Be it Drinking Water needs, processed water or Sewage Treatment, we provide absolutely top class systems with phenomenal efficiency. By concentrating on our critical core market of people who demand clean water, we are able to focus on this clear, straightforward goal.

Matrix Eco Solution's core competencies include the design, assembly, and customer support for water purification systems. Our product suite ranges from simple Filtration units to Reverse osmosis systems that are geared toward both domestic and international use, such as light commercial products, food service units, and systems for stores that sell purified water.

Our water treatment plants cater to various applications like drinking, Pharmaceutical, Semiconductors, Mineral water, process, Boiler feed, cooling Textile Industry, Automobile Industry Hospital, Commercial Complexes and many more.

Reverse Osmosis Plant Industrial & Commercial

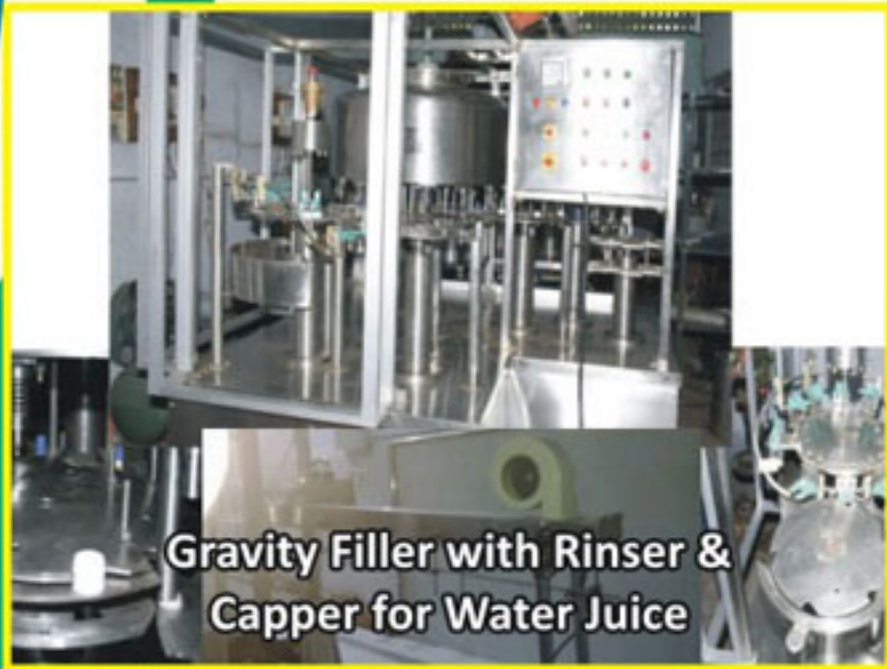

COMPANY PHILOSOPHY

- To provide state-of-the art water treatment technology in the country.
- To provide appropriate and cost effective solutions to the customer.
- To provide and maintain the best services to the customer.
- To expand customer base throughout the country and abroad.
- Matrix believes in selling solutions not in selling products.

SERVICE

Our products are backed-up and serviced by our own service technicians, engineers who have experience in trouble shooting and solving such problems. Each member of our sales & service team has undergone comprehensive product training and is constantly updated on introduction of new products to meet customers demand in shorter time.

We hope you will take interest in our range of products and we shall be happy to provide more information regarding our systems whenever desired by you.
